Request for Reconsideration of Patent Term Adjustment Determination Under 37 C.F.R. § 1.705(d)

Attn: Mail Stop Patent Ext.

Commissioner for Patents PO Box 1450 Alexandria, VA 22313-1450

Sir:

Pursuant to 37 C.F.R. § 1.705(d) and § 1.705(b)(1) and (b)(2), Patentees hereby provide a concise statement of facts involved, as well as payment of fee set forth in 37 C.F.R. § 1.18(e). Patentees are filing this Request under 37 C.F.R. § 705(d) to correct the revised patent term adjustment in the captioned patent because the revised patent term adjustment should have indicated that Patentees are entitled to additional patent term.

Statement of the Facts:

Patentees hereby request that the Patent Term Adjustment (PTA) for the captioned patent be corrected to allow an addition of 77 days to the current PTA of 621 days, for a total PTA of 698 days. In accordance with 37 C.F.R. § 1.705(b)(2)(i), Patentee states that the correct PTA is 698 days.

98/22/2086 CNGUYEN1 88888854 7864185 91 FC:1455 289.88 OP U.S. Appl. No. 09/767,080, which issued into the captioned patent, U.S. Patent No. 7,064,105 B2 ("the '105 patent"), was filed on January 22, 2001. On June 20, 2006, the U.S. Patent and Trademark Office (PTO) issued the '105 patent indicating that the term of the '105 patent is extended under 35 U.S.C. § 154(b) by 621 days. According to PTO's Patent Application Information Retrieval (PAIR) system, the PTA of 621 days is calculated as follows: the PTO delay of 880 days reduced by Applicant Delay of 259 days. A copy of the printout from the PAIR system is attached as Exhibit A.

The PTA is incorrect because the Applicant Delay period of 120 days, shown on Exhibit A from June 8, 2005, to February 6, 2006, should not be considered applicant delay. It is Applicant's understanding that the 120-day delay period was indicated as such due to a paper filed by Applicant on February 6, 2006. However, as explained below, the filing of the paper on February 6, 2006, should not have resulted in reduction of PTA because the filing of the paper was not a grounds for reduction of PTA under § 1.704. Specifically, the paper filed on February 6, 2006, was a paper filed in response to an express request by the PTO. See 37 C.F.R. § 1.704(c)(8) ("Submission of a supplemental reply or other paper, other than a supplemental reply or other paper expressly requested by the examiner....").

Additionally, the PTA as calculated by the PTO fails to include a time period which should be deducted from the total PTA. Specifically, and as explained below, the PTA as calculated does not include the filing of a supplemental Information Disclosure Statement after the Notice of Allowance. See 37 C.F.R. § 1.704(c)(10).

The relevant time actions and dates are as follows. On March 9, 2005, a non-final Office Action was mailed. On June 8, 2005, Applicants replied to the Office Action and filed concurrently a supplemental Information Disclosure Statement ("IDS"). On July 5, 2005, the PTO mailed the Notice of Allowance and Fee(s) Due. On August 4, 2005, Applicants filed an additional supplemental IDS under 37 C.F.R. § 1.97(d) and (e)(1). On September 13, 2005, the PTO mailed an Office communication which was responsive to the supplemental IDS filed August 4, 2005. On October 5, 2005, Applicants paid the issue fee. On January 1, 2006, the PTO mailed an Office communication requesting a copy of the declaration signed by the inventors. On February 6, 2006, Applicants filed the requested documents within the one-month reply period. On June 5, 2006, Applicants' undersigned representative received the Issue Notification, which indicated that the PTA would be 621 days. On June 20, 2006, the '105 patent issued.

It appears that the PTO has deducted 120 days from the PTA for the paper filed on February 6, 2006 ("the February 6 paper"). A copy of this filing is attached Exhibit B. The February 6 filing was filed in response to a specific request from the PTO. On January 1, 2006, the PTO requested another copy of declaration executed by the inventors. A copy of this Communication is attached as Exhibit C. Therefore, the February 6 paper was a paper expressly requested by the examiner and therefore should not detract from any patent term adjustment of the '105 patent. *See* 37 C.F.R. § 1.704(c)(8).

Furthermore, the filing of the February 6 paper was necessitated only by the PTO's request. As explained in the February 6 paper, each of the documents included in

that filing were copies of papers previously filed by the applicant. (See Exhibit B.) Accordingly, any alleged delay attributed to the filing of the February 6 paper should not be detracted from the PTA for the '105 patent.

Patentee also notes that the PTO's calculation failed to include a time period which should be deducted from total PTA. In particular, on August 4, 2005, Applicants filed a supplemental IDS after the Notice of Allowance was mailed. In response to the supplemental IDS, the PTO issued a communication on September 15, 2005. Accordingly, this period of 42 days should be deducted from the PTA for the '105 patent. See 37 C.F.R. § 1.704(c)(10).

In accordance with 37 C.F.R. § 1.705(b)(2)(ii), the relevant dates specified in §§ 1.703(a)-(e) for which an adjustment is sought and the adjustment specified in § 1.703(f) to which the patent is entitled is shown in the following table.

PTO Delay	Relevant Rule	Dates	Days
Delay of first action	ay of first action § 1.703(a)(1) Jan. 22, 2001 to Aug. 25, 2003		521
Delay of action after response	§ 1.703(a)(2)	Jan. 30, 2005 to Mar. 7, 2005	38
Delay of issuance of patent	§ 1.703(a)(6)	Feb. 5, 2006, to June 20, 2006	135
Three year examination delay	§ 1.703(b)	Jan. 22, 2004, to June 20, 2006	186 (less any overlap pursuant to § 1.703(f))
Interference delay	§ 1.703(c)	N/A	0
Secrecy delay	§ 1.703(d)	N/A	0
BPAI Delay	§ 1.703(e)	N/A	0
	- I	Total	880

In accordance with 37 C.F.R. § 1.705(b)(2)(iv), the following table provides relevant time periods under § 1.704.

Description	Relevant Time Period for PTA Deduction	Number of Days
Extension of time to reply to Restriction Requirement dated Aug. 25, 2003.	Nov. 25, 2003, to Feb. 17, 2004. See 37 C.F.R. § 1.704(b).	84 days
Extension of time to reply to Office Action dated	Aug. 3, 2004 to Sept. 30, 2004. See 37 C.F.R. § 1.704(b).	55 days
Submission of supplemental IDS after Notice of Allowance	August 4, 2005, to September 15, 2005. See 37 C.F.R. § 1.704(c)(10)).	42 days
	<u>Total</u>	182

In accordance with 37 C.F.R. § 1.705(b)(2)(iii), Patentee states that the '105 patent is not subject to a terminal disclaimer. Patentee further states that none of the issues raised herein were raised or could have been raised in an application for patent term adjustment under 37 C.F.R. § 1.705(b).

The Precise Relief Requested:

It is respectfully requested that the PTO change the PTA in this case to 698 days. As detailed above, this number has been calculated based on delay by the PTO of 880 days from which 182 days have been subtracted for Applicant Delay.

As this Letter was filed in good faith pursuant to Applicants' duty of candor with the PTO, Patentees should not be charged a fee for this petition to correct further PTA errors stemming from this original letter. However, should the requested waiver of the fee be denied, in accordance with 37 C.F.R. § 1.705(b)(1), the fee set forth in 37 C.F.R. § 1.18(e) is provided in our accompanying Credit Card Payment Form PTO-2038. It is

not believed that additional fees are required beyond those that may otherwise be provided in documents accompanying this paper. However, if additional fees are required, the U.S. Patent and Trademark Office is hereby authorized to charge any fee deficiency, or credit any overpayment, to our Deposit Account No. 19-0036.

If it is believed, for any reason, that personal communication will expedite consideration of this Request, please do not hesitate to telephone the undersigned at the number provided. Prompt and favorable consideration of this Request is respectfully requested.

Respectfully submitted,

LICENSE FOR FOREIGN FILING UNDER Title 35, United States Code, Section 184 Title 37, Code of Federal Regulations, 5.11 & 5.15

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

PLEASE NOTE the following information about the Filing Receipt:

- The articles such as "a," "an" and "the" are not included as the first words in the title of an application. They are considered to be unnecessary to the understanding of the title.
- The words "new," "improved," "improvements in" or "relating to" are not included as first words in the
 title of an application because a patent application, by nature, is a new idea or improvement.
- The title may be truncated if it consists of more than 500 characters (letters and spaces combined).
- The docket number allows a maximum of 25 characters.
- If your application was submitted under 37 CFR 1.10, your filing date should be the "date in" found on the Express Mail label. If there is a discrepancy, you should submit a request for a corrected Filing Receipt along with a copy of the Express Mail label showing the "date in."
- The title is recorded in sentence case.

Any corrections that may need to be done to your Filing Receipt should be directed to:
